DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-13, 19-27, 29-38, drawn to methods of inhibiting MAD2 function using a peptide, classified in class 514, subclass 16.
- II. Claims 14-18, drawn to methods of using a nucleic acid molecule to inhibit MAD2 function, classified in class 514, subclass 44.
- III. Claims 28-32, drawn to methods of inhibiting MAD2 function and treatment of cancer using a peptide-mimic, classified in class 514, subclass 12.
- IV. Claims 39-45, drawn to method for screening for an anti-cancer agent, classified in class 435, subclass 7.1+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are distinct because the methods of Groups I-III each administer chemically and structurally different products. The method of Group IV is different from those of Groups I-III because Group IV is directed to a screening process whereas the methods of Groups I-III are directed to an inhibition or treatment..

Art Unit: 1642

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
